PROFESSIONAL SUMMARY

Aspiring Full Stack Web Developer and BCA student with hands-on experience building and deploying responsive web applications using React.js, Next.js, Node.js, Express.js, and Django. Skilled in developing RESTful APIs, integrating SQL and NoSQL databases, and implementing secure JWT-based authentication. Proficient in Git, GitHub, and modern deployment platforms such as Vercel and Heroku. Seeking a Web Developer Internship to apply full-stack development skills and contribute to building scalable, user-focused web applications.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, Next.js, Bootstrap, Tailwind CSS, Responsive Web Design, DOM Manipulation

Backend: Node.js, Express.js, Django, Python, RESTful API Development, JWT Authentication, WebSockets, Socket.io

Databases: MongoDB, MySQL, PostgreSQL, SQLite, NoSQL, SQL

Dev Tools: Git, GitHub, Vercel, Heroku, Netlify, VS Code, Postman, CI/CD, Agile Development

PROJECTS

- E-Commerce Platform** | *Django, React.js, PostgreSQL, REST API, Cloud Storage, JWT* Aug 2025 – Oct 2025
- Developed a full-stack e-commerce web application featuring product listings, shopping cart, and end-to-end order management workflows.
 - Implemented secure user authentication and role-based access control using a custom Django user model with JWT token-based authorization.
 - Integrated cloud storage (AWS S3 / Cloudinary) for scalable media uploads, optimizing image delivery and reducing load times.
 - Designed and consumed RESTful APIs connecting the Django backend to a React.js frontend, ensuring seamless data flow across the application.

- SB Recipes – Recipe Discovery App** | *React.js, Api, Vercel, Git* Mar 2025
- Built a fully responsive recipe discovery application using React.js, leveraging reusable functional components and React Hooks for state management.
 - Integrated a third-party REST API to dynamically fetch and render recipe data, implementing real-time search and category-based filtering functionality.
 - Deployed the application on Vercel with CI/CD via GitHub, maintaining clean version control and achieving fast, reliable production builds.

- Collab X – Real-Time Collaboration Platform** | *Node.js, Express.js, WebSockets* Dec 2024 – Mar 2025
- Engineered a real-time collaboration platform enabling users to post, discuss, and co-develop business ideas with live feed updates.
 - Implemented bidirectional real-time communication using WebSockets (Socket.io), enabling instant messaging and live content updates without page refresh.
 - Designed a scalable RESTful backend with Node.js and Express.js, persisting data in MongoDB with efficient query handling.

- User Management Dashboard** | *React.js, tailwind CSS* Aug 2024
- Built an interactive admin dashboard using React.js with modular, reusable components for displaying and managing user data.
 - Implemented dynamic search and multi-parameter filtering features, improving data exploration efficiency and usability.
 - Designed a fully responsive layout using CSS Flexbox and Grid, ensuring consistent cross-device usability across desktop, tablet, and mobile screens.

EDUCATION

Sivet College
Bachelor of Computer Applications (BCA) – Computer Applications

Chennai, India
2024 – 2027
